# Mannheim Steamroller

Chip Davis is the genius behind Mannheim Steamroller, bringing him international recognition for creating a virtual renaissance in contemporary sound. A graduate of the University of Michigan School of Music, Davis began to find the roots of his own composition by adapting classical compositions to contemporary rhythms and harmonies as a means of instructing reticent students in the public school system. Mannheim Steamroller is a title derived from an 18th Century German performance style of crescendo (Mannheim roller). As his music found greater acceptance, Davis began incorporating outstanding Classical musicians into the Mannheim Steamroller sound. He defines his music as "18th Century Rock 'n Roll."

## ORCHESTRA SCORES
