Score: \$36.95 | Individual Strings: \$11.95 Score: \$44.95 | Individual Strings: \$12.95

Habits of a Successful String Musician is a field-tested, vital, and—most importantly—musical collection of almost 400 sequenced exercises for building fundamentals. Perfect to use with the entire string orchestra or solo player at virtually any skill level, this series contains carefully sequenced warm-ups, sight-reading etudes, rhythm vocabulary studies, chorales, tuning canons, and much more. This series collects everything an aspiring player needs to build fundamental musicianship skills and then be able to transfer those skills directly into the performance of great literature, all in one place.

Habits of a Successful String Musician:

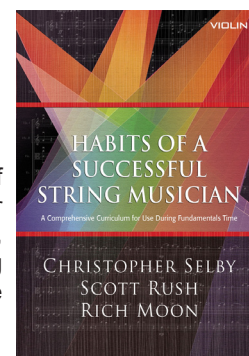

- Presents a differentiated, sequential, and comprehensive method for developing skills that lead to the mastery of reading rhythms and ultimately musical sight-reading.
- Creates a method for teaching scales, arpeggios, and thirds that simultaneously accommodates students of different ability levels.
- Organizes tone, rhythm, and articulation patterns into a flexible and sequential series.
- Creates finger pattern and velocity studies that address the most common problems encountered by intermediate orchestra students.
- Provides beginning through advanced shifting exercises for students of every level.
- Creates exercises for learning alternate clefs and higher positions.
- Provides chorales for the development of intonation, tone quality, blend, and musicianship.
- Presents rhythm charts in a new format that allows transfer from timing and rhythm to pitches in a musical context.
- Provides audition sight-reading exercises in a classroom “full-ensemble” format that is well-planned in scope and sequence.

There are over 130 sight-reading examples in this book.

- Promotes the idea that students should cross the threshold from the “technical components of playing” to music-making.

What's NEW in the Second Edition?

- A rhythm canon for combining various articulations and new melodic exercises for developing tone, blend, vibrato, spiccato, and sautillé.
- A new Intermediate Positions curriculum teaches young cellists the shifting skills required for keys with more than three sharps or flats.
- A new sequence of two-octave arpeggios in ten keys improves students' range and fluency across the instrument.
- Improved cello and bass fingerings and includes bass scales with C-extensions.
- More chorales in a greater variety of keys and from more diverse cultural backgrounds.
- 185 completely new rhythm charts and sight-reading exercises with tempo markings for each exercise.

Book 2 - Selby, Rush - #32530

Score: \$35.95 | Individual Strings: \$10.95

What makes Habits of a Successful Young String Musician unique?

Tone is at the heart of this method.

- Students begin using the bow earlier than other resources.
- The familiar melodies enable students to use their ears to develop good pitch and tone.
- Online videos allow students to see and hear professional string players modeling good tone and technique for each exercise.

Tonal Literacy is a key focus of this book.

- All four open strings are introduced early.
- New notes are introduced with clear fingerboard diagrams and pictures next to the staff.
- New keys are taught by highlighting notes affected by the new key signature.

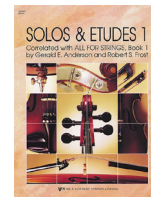

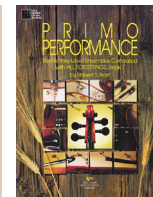

Online resources include instructional videos by professional string coaches to reinforce instrument position, left-hand set-up, bow hand technique, hooked bows, slurs, developing good tone, as well as shifting and positions in the lower strings.

Methods & Collections

More than fifty years ago Japanese violinist Shinichi Suzuki realized that children the world over learn to speak their native language with ease, and applied the basic principles of language acquisition to the learning of music. He called his method the mother-tongue approach. The ideas of parent responsibility, loving encouragement, and constant repetition are some of the special features of the Suzuki approach.
